

Can kids
have strokes?

YES!

Hi, I'm Michelle.

I had a stroke before I was born that changed my life, but I'm OK with it.

I'm one of the lucky people.

Most people have speech, writing, seeing and thinking problems when they have strokes.

But I go to school with all the other kids. I'm really good at math and writing.

I can also play sports, swim and do most anything that other kids can do.

I can also talk really well. I'm a very lucky girl because I have a family that loves me
and wants to do everything they can to help me.

Will you help stroke survivors, too?
